Oxygene is Meribel's favourite English-speaking ski school and has been providing private and group lessons, to skiers and snowboarders for the last 25 years. We pride ourselves on having something for everyone. We put our clients first every time and keep our group size to a maximum of 8 clients per instructor to ensure everyone gets the most out of their lessons.

FOR KIDS

Our fun and friendly children's groups start off in our very own beginners area which is key in helping little ones build confidence in a safe and enjoyable environment before progressing onto the main slopes. Children progress through recognised ski levels and are rewarded with a medal at the end of each week.

FOR TEENS

For teenage skiers we have our popular Pro-Rider groups, where teenagers can progress their skills all over the mountain from bumps to park to off-piste.

FOR ADULTS

Our adult group lessons are available for all levels and cater for every age, taste and ability.

FOR SNOWBOARDERS

Oxygene snowboard group lessons are designed to transform your confidence, technique and slope style. Using tried-and-tested teaching methods alongside patient, clear and coherent guidance, our expert instructors will carve your route to snowboarding success.

MADE TO MEASURE

With our private lessons clients can keep it personal and push their ski or snowboarding journey to new peaks. Available for all disciplines, clients can choose to go solo for ultimate progression or team up and share their session with friends or family.

OFF PISTE & GUIDING

Make the most of each powder day with Oxygene. Explore the true terrain of the mountain, learn how to ski powder and ride the line of the season with our off-piste & guiding options.
